

SAMER SOLTANI | AI ENGINEER

samer.soltani.dev@gmail.com · [LinkedIn](#) · [GitHub](#) · +216 50 565 255

PROFILE SUMMARY

AI Engineering student and impact-driven developer with hands-on experience in **NLP research**, **deep learning**, and **full-stack development**. Seeking a **Graduation Internship (PFE)** in **January/February 2027** to build scalable, impactful AI-driven solutions.

TECHNICAL SKILLS

Artificial Intelligence: PyTorch, Deep Learning, NLP, Sentence-BERT, DeepLabV3+

Big Data & Data Engineering: Kafka, Sqoop, Flume, HDFS, **Hadoop CDH**

Backend: Spring Boot, FastAPI, Node.js, Express, REST APIs, MVC architecture

Frontend: ReactJS, TypeScript, Tailwind CSS, Chart.js, Vite

Databases: MySQL, MongoDB, PostgreSQL, Firebase

Tools & DevOps: Git, GitHub, Docker, Docker Compose, GitLab CI/CD, Linux, Kaggle

PROFESSIONAL EXPERIENCE

Groupe Imagine Human (Qualipro)

AI Research Intern — NLP & Document Similarity

Tunis, Tunisia

Jul 2026 – Aug 2026

- Addressed a recurring **business problem** across the group's QHSE software suite (AXON, Qualipro, Winlassie, Fletchr, Qualnet): **duplicated and reformulated client documents** causing redundancy and version-control risk.
- Benchmarked **5 similarity architectures** (Jaccard, TF-IDF, BM25, SBERT, E5) on a self-built **360-pair ground-truth dataset** (270 dev / 90 test) to identify the most reliable detection method.
- Diagnosed and corrected a **max-aggregation bias** inflating similarity scores for unrelated documents; recommended a **hybrid SBERT + BM25** approach balancing lexical precision with semantic robustness to paraphrase.
- Built a demo application (**FastAPI, PostgreSQL, React, Docker**) aligned with the group's GitLab CI/CD and Azure infrastructure standards.

Dream Tek Consulting

Full-Stack Developer Intern

Tunisia

May 2025 - Jun 2025

- Addressed the need for **centralized, secure access to patient records and appointments** by building **DEWINI**, a healthcare web app (**Spring Boot**, secure REST APIs, MVC architecture) with medical records persistence in MySQL.
- Independently extended DEWINI with **AI-assisted diagnostic decision support**, consultation **transcription**, and **remote monitoring** of patients' vital signs.

SWIFTECH

Full-Stack / BI Developer Intern

Tunisia

Feb 2024 - May 2024

- Addressed the need for **centralized, role-based visibility into KPIs** that were previously scattered across manual reports and spreadsheets, by building a multi-role **BI dashboard** (ReactJS, Chart.js, Node.js) with REST APIs and per-role access control.
- Designed interactive KPI visualizations (charts, trend views) tailored to each user role, replacing manual data compilation with a real-time, centralized reporting tool.

PERSONAL PROJECTS

Resume Matcher (resumematcher.tn)

Jul 2026

- Designed and launched a **live SaaS** that scores resumes against job descriptions and surfaces missing keywords via the **Groq LLM API (Llama 3.3-70B)**; built the full stack solo (React/Vite, FastAPI, SQLite) with a **freemium model** (IP-rate-limited free tier plus subscription payments).

CityScope — Semantic Segmentation Web App

Apr 2026

- Preprocessed and augmented an urban scene dataset, then trained a **DeepLabV3+** model in PyTorch achieving **51% mIoU** and **85% pixel accuracy**.
- Built a **FastAPI** backend for real-time inference and a **React** front-end for image upload and mask visualization, containerized with **Docker**.

EDUCATION

Tunis International Private Polytechnic School (Polytech-Intl)

Engineering Degree, Big Data and Artificial Intelligence

Tunis, Tunisia

Sep 2024 - Present (final year)

Higher School of Economic and Commercial Sciences of Tunis (ESSECT Tunis)

Bachelor's Degree in Business Computing

Tunis, Tunisia

Sep 2021 - Jun 2024

High School Diploma, Computer Science Track

Lycée Ibn Abi Dhiaf

Manouba, Tunisia

2021

CERTIFICATIONS

- PMI Project Management Ready** — Project Management Institute
- IT Specialist – Python** — Pearson
- IT Specialist – JavaScript** — Pearson
- AWS Academy Graduate – Cloud Foundations** — Amazon Web Services (AWS)
- Fundamentals of Deep Learning** — NVIDIA

LANGUAGES

Arabic: Native | French: [DELFB2](#) | English: Professional Proficiency

LEADERSHIP & ACTIVITIES

- Hult Prize, ESSECT Tunis — Events Manager:** organized and coordinated on-campus events for the **Hult Prize** global student entrepreneurship competition.
- Google Developer Student Club, Polytech Intl Tunis — Treasurer:** managed the club's budget and finances, supporting tech community events and workshops.
